CHOICE HARDY PERENNIAL PLANTS

AUTUMN, 1933

GREEN BROOK GARDENS

AMY HORE

Telephone
Fanwood 2-7424-R-2

Post Office
Scotch Plains, N. J.

Following is a selection of choice perennials which bloom early in the year. They should be planted in the autumn in order that they may be established by spring, and so be strong enough to burst into bloom with the first warm days.

If the full list of plants is desired, please send for catalogue.

With every order received this autumn I shall send a root of iris for each six plants in the order. Thus, two iris roots will be sent with a dozen plants; four iris roots with two dozen plants; and so on.

Please keep this in mind when making up your order, and choose your iris from the following varieties: Amber, Dream, Jacqueline Guillot, Lent A. Williamson, Lord of June, Mother of Pearl, Taj Mahal.

THREE APRIL PERENNIALS

The three following perennials all begin to bloom in April. They all grow about fifteen inches high and after several years make beautiful large clumps three feet in diameter. They all grow well in shade and are ideal rock plants. All are increased by division after flowering.

ANCHUSA MYOSOTIDIFLORA (Siberian Bugloss). Sprays of true forgetmenot flowers appear with the opening foliage and last for six weeks, while the beautiful large, heart shaped leaves make a splendid mass of dark green all summer.

\$3.50 a dozen. \$25 for 100

DORONICUM CLUSII (Downy Leopard's Bane). Large golden daisies which are lovely for cut flowers, with pretty, shining, bright green foliage.

\$3.00 a dozen. \$20 for 100

PULMONARIA (Spotted Dog). A charming old fashioned perennial, which takes its popular name from the curious way in which the leaves are spotted with white. For six weeks or more in spring the plants are covered with sprays of pink buds which are constantly opening into blue flowers, the two colors making a delightful and unusual picture.

\$3.50 a dozen. \$25 for 100

Three of each of these April perennials— 9 plants \$2.50

Six of each of these April perennials—18 plants 4.50

Twelve of each of these April perennials—36 plants 8.00

TROLLIUS

(Popularly called Globe flower. This name arises from the fact that the petals of the flowers curl upwards in spherical form.)

The Globe flowers are beginning to be appreciated for the very great contribution they make to the beauty of gardens. They have handsome, deeply cut foliage, and shining gold flowers. They like shade and a heavy rich soil, but they will grow in sun if they have plenty of water. They are not at their best for two or three years until they have grown into large clumps when they send up many graceful sprays of their beautiful flowers. Propagation is by division after flowering.

GOLDQUELLE HYBRIDS. A fine early blooming variety, bearing quantities of large globe shaped golden flowers in May and again from August through November, so that it is almost a perpetual bloomer.

\$5.00 a dozen. \$35 for 100

LEDEBOURI. This Trollius blooms in June. The rich orange flowers are open instead of globe shaped, and show a mass of large golden stamens which add very much to their beauty. The plants grow three feet high.

\$3.50 a dozen. \$25 for 100

TROLLIUS "GOLDEN QUEEN." NEW. This is a glorified form of Ledebouri, being taller and larger in every way. The open flowers are golden yellow and very large, with triple rows of petals and prominent gold stamens. "Golden Queen" is one of the outstanding introductions of late years.

\$6.00 a dozen. \$40 for 100

Three plants of each Trollius— 9 plants \$ 3.50

Six plants of each Trollius—18 plants 6.50

Twelve plants of each Trollius—36 plants 12.00

VIOLA "MAGGIE MOTT"

The lovely pinkish lavender viola with which all visitors to England fall in love. The flowers are very large and borne in quantities all through the spring. Like all the English violas, Maggie Mott suffers from the hot weather in summer, and to be at their best they must be planted in the autumn so that they will be ready to burst into bloom at the first coming of spring. They are perfectly hardy with a light covering of straw to protect the foliage in winter.

These violas were grown from English seed and will vary slightly in color but all are beautiful shades of lavender.

\$2.50 a dozen. \$18.00 for 100

VIOLA ODORATA "ROSINA"

A true hardy garden violet with single flowers, soft pink in color, possessed of the most delicious perfume of which a violet is capable.

"Rosina" blooms outdoors in early spring for a few weeks, but its long blooming season is in the autumn. Beginning the first of September the blossoms appear continually all the fall, the flowers becoming larger with longer stems, and the color deeper, as the weather becomes cooler. If the plants are kept in a frame, flowers can be picked all winter.

"Rosina" is a strong grower and should be divided every other year. It blooms best in full sun but will stand some shade in summer. The chief requirements are rich soil and plenty of moisture. It is very hardy and in winter needs only the usual protection of straw or peat moss to preserve the foliage.

\$3.50 a dozen. \$25 for 100

THE S. L. N. PLANT STAKE

The best plant stake on the market

It is inconspicuous

It needs no tying

It is quickly put in place and quickly removed

It is indestructible

Prices are on the enclosed circular.

PEONIES

SINGLE AND JAPANESE PEONIES

Far more artistic than the double kinds, single and Japanese peonies are highly valued by garden lovers of discriminating tastes. Hitherto, high prices have prevented their general use. Now, however, reduced prices have brought them within reach of many who have longed to possess these lovely flowers. It is not likely that prices will be as low as they are this autumn for some years to come.

Peonies may be planted from September until the ground freezes.

The roots sent out are strong divisions, with from three to five (or more) eyes. They will bloom next spring.

SINGLE

L'ETINCELANTE. Soft, velvety carmine, with a silvery margin.....	Each \$1.00
MADELEINE GAUTHIER. Large flower of perfect shape; silvery flesh color	2.25
MARGUERITE DESSERT. Very large flower; white, thickly sprinkled with pale pink dots	1.25

Collection No. 2.—One each of Mikado, Surugu, Tokyo and Yoochi-no-Tsuki. 4 roots 8.00

Collection No. 3.—One of each Japanese peony—7 roots18.00

The
S.L.N. TRADE MARK
PRODUCTS

KENNELL, INC. 80 Boylston St. Boston, Mass.

The S-L-N PLANT STAKE is a new, simple, inexpensive and practical device for supporting plants and flowers—used in place of the usual “stick and string” it is pushed into the ground and then by a simple twist it protectingly engages around the flower stalk and prevents wind and rain damage.

The S-L-N PLANT STAKE is

SIMPLE—quickly inserted in ground and locked about the plant—no tying. Cut flowers are immediately released.

ADJUSTABLE—set the twist at any height to suit the plant—raise it as the plant grows.

NON BINDING—The spiral lock is made sufficiently large to allow reasonable, yet not excessive, movement of the stalk.

INVISIBLE—No part of stake protrudes above the plant into which the green color blends.

DURABLE—and therefore economical—the treated wire from which it is made assures many years of use.

“Set in 10 seconds (removed in 3) they allow the plants the flexibility in a breeze that is essential to natural grace, and they are invisible.”

PRICE LIST

		12	25	100	1000	Plain galvanized in 1000 lots only

HOLLYHOCK.

The S-L-N PLANT LABEL is neat, attractive, and will enhance the beauty of any seed bed, rock garden, or flower garden. Three inches wide and eight inches long, it has been made to fill the garden lover's need of a label subordinate to the flowers, yet easily seen and read.

PRICES 5c each — \$4.50 per hundred

A special GARDEN KIT consists of 12 labels in a box with a novel wooden lid which serves as a pad when lettering the label—priced at 60c. by mail postpaid.

IRIS

IRIS CRISTATA

The dainty little crested iris, so lovely for the rock garden. The color is a delicate blue. It grows six inches high and likes shade.
\$2.50 a dozen. \$15 for 100

TALL, BEARDED IRIS

A very few years ago the varieties given below were in the novelty class and very high priced. They are just as beautiful now at a fraction of their cost three years ago. Moreover their worth has been proved and they will remain standard varieties for many years to come, although novelties may come and go. They may be planted until the ground freezes.

WHITE

Each
TAJ MAHAL. 36 ins. A fine garden white, hardy and free flowering....\$.25
WHITE AND GOLD. 37 ins. Gleaming, satiny white with a brilliant
gold beard. A fast increaser and good bloomer75

One each of white iris
Two roots—\$.85

YELLOW

AMBER. 36 ins. A good clear color25
SHEKINAH. 37 ins. Taller and lighter than Amber25

One each of yellow iris
Two roots—\$.35

BLUE AND LAVENDER TONES

JACQUELINE GUILLOT. 36 ins. A handsome, gigantic flower of perfect
form and uniform bluish violet self coloring with white beard..... .25
LENT A. WILLIAMSON. 42 ins. Dark blue-purple bi-color. Large
flower25
LORD OF JUNE. 40 ins. Flowers of enormous size (seven inches in
length), the standards a soft lavender blue and the falls a deeper violet
blue. A consistent winner of blue ribbons25
MOTHER OF PEARL. 44 ins. Very large flowers borne high above the
foliage. Lovely light lavender with iridescent coloring25
SOUVENIR DE LOETITIA MICHAUD. 54 ins. A queenly flower of
glistening texture, soft blue standards and falls. By far the finest of
the light blues50

One each of the blue and lavender tones
5 roots \$1.00

PINK TONES

APHRODITE. 54 ins. Violet pink with white throat. A great iris.....	.35
DREAM. 38 ins. Clear, uniform pink. For mass effect in a garden it is unsurpassed25
FRIEDA MOHR. 48 ins. One of the largest irises in cultivation. An exquisite lilac-pink bi-color, the falls a little deeper in color than the standards. An outstanding iris since its introduction and still in the first rank75
SUSAN BLISS. 40 ins. Orchid pink self color, a little deeper toned than Dream25

**One each of the pink tones
4 roots—\$1.00**

RED TONES

AMBASSADEUR. 42 ins. Smoky, reddish violet standards; falls of deep velvety maroon25
GRAND MONARCH. 40 ins. A self color of velvety bronze red with heavy golden beard. A wonderful iris, aptly named, as it strongly suggests the gorgeous red velvet robe of a king	2.50
OPERA. 24 ins. Rich, bright red. A profuse bloomer25
SEMINOLE. 30 ins. Larger, but not quite so bright as Opera25

**One each of the red tones
4 roots \$2.75**

BLENDS

MIDGARD. 36 ins. One of the famous Sass blends; yellow flushed with rose pink. A lovely combination of colors that is absolutely impossible to put into words50
MME. DURRAND. 46 ins. Another blend that defies description. Iridescent buff, lilac and amber, with a glistening, silky texture. Needs perfect drainage50
VALENCIA. 24 ins. A beautiful and unique color in iris, very near to orange50

**One each of the blends
3 roots \$1.25**
